

CODENSA S.A. ESP
NEWS IN THE MEDIA OF ISSUERS OF SECURITIES
AUGUST 04, 2020

Codensa S.A. E.S.P. (here in after “The Company”) informs that it has been notified of the opening of an investigation and the respective formulation of a statement of objections by the Superintendency of Domiciliary Public Services, which has been informed through different media. In it, the Company is imputed with a charge for billing the energy service through average consumption during the months of March, April and May of the current year. Taking into account that the company has carried out its billing operation acting diligently and that the situations of averaged accounts are mainly due to the inability to access the properties, given the particular situations generated by the emergency derived from COVID 19, The Company is preparing the respective response to this charge. In this way, in accordance with numeral 5 of literal b. Article 5.2.4.1.5 of Decree 2555 of 2010 will proceed to give more information about this investigation once the statement of objections has been answered. Likewise, the relevant decisions within the process will also be reported.
