**FEBRUARY 19, 2024**

Enel Colombia S.A. ESP informs that on February 19, 2024, two credit operations were carried out under a sustainable line of credit with Banco de Bogotá, as described below:

1. Novation of credit for 400,000 million pesos, for a term of seven (7) years, with a grace period of one-year, semiannual amortizations, and interest payments every month. The resources received will be used for the substitution of ordinary debt for sustainable debt.
2. 100,000 million pesos, for a term of seven (7) years, with a grace period of one-year, semiannual amortizations, and monthly interest payments. The resources received will be used for the development of CapEx for renewable projects.

The documentation associated with the loan includes the standard events of default for this type of financing that result in the acceleration of the loan and excludes guidelines regarding the mechanisms of repetition against third parties.
