*Long term financial liabilities which include accrued interests.

** Adjusted EBITDA is calculated by adding back the depreciation and amortization (included in cost of sales and administrative expenses) to operating income.

CODENSA'S 1Q 2014 MAIN HIGHLIGHTS

- Investments:** Close to USD\$ 20 million, mainly focused in improving the quality of service as well as meeting the growth in energy demand. Such investments included the installation of remote-controlled equipment, the replacement of electrical infrastructure in medium tension networks, the implementation of technical measures in forest areas, and preventive maintenance programs.
- Financial Debt:** As of March 2014, financial debt including interests, reached the equivalent in pesos to USD\$505 million, showing a 20.4% increase as compared to December 2013, due to the maturity of local bonds on March 11 for an amount equivalent in pesos to USD\$127 million, which had been prefunded in November 2013 with a local bond issuance..
- Dividends:** Codensa's Ordinary Shareholder's Meeting was held on March 27, during which the shareholders approved the financial statements and management reports of 2013 and agreed to distribute dividends corresponding to the total net income of 2013 for a total amount of USD\$273 million, which will be paid during 2014 and 2015.
- Copilots Project:** First Place in the Street Intelligence Ranking for Codensa's Copilots Project consisting in the installation of 674 cameras in the operating fleet to monitor the observance of security standards to prevent accidents.
- Bogotá Electrika:** Members of the PPA Bogota Electrika (project to transform Bogota's current massive transportation system into an electricity based system) received notification to advance to the feasibility stage which requires the preparation of final studies (technical and financial) in the next 6 months.

EMGESA'S 1Q 2014 MAIN HIGHLIGHTS

- Salaco Repowering:** A 77.2%, physical execution in the repowering of 6 units of the Salaco Chain in the Bogota river, as of March 2014 which will add 144.8 MW of installed capacity in generation to the old plant. Accumulated investments for more than USD\$28 million in the project from the total budget of USD\$43.7 million. As of March 2014, Dario Valencia plant formerly known as Colegio had two 50MW units in operation as a result of the repowering.
- El Quimbo Project:** Physical execution of 64,8% as of March 2014 with an accumulated investment of USD\$638.9 million. The USD\$1,09 billion reviewed by the end of 2013, includes foreseen increases in the costs of the social and environmental plan, the dam, the civil works and the engineering. As of March 31, 2014 Emgesa had raised 68% of the total resources demanded for the project and had already backed up 82% of the needs of the project with the committed lines signed with local banks in 2011 for the equivalent in pesos to USD\$187 million.
- Investments:** For USD\$104 million, mainly focusing on infrastructure works, acquisition of equipment and projects of the social and environmental plan of El Quimbo, the repowering of Salaco, and the maintenance of the generation plants.
- Financial Debt:** On February 11, 2014 EMGESA served a local bond maturity for the equivalent in pesos to USD\$25 million, using the resources from the prefunding obtained in September 2013 through the issuance of bonds under the local bond program.
- Dividends:** Emgesa's Ordinary Shareholders' Meeting was held on March 26, during which the shareholders approved the approved the financial statements and management reports of 2013 and agreed to distribute dividends corresponding to the total net income of 2013 for an amount of the equivalent in pesos to USD\$277 million, which will be paid during 2014 and 2015.
