

NEWS IN THE MEDIA OF SECURITIES ISSUERS

EMGESA S.A. ESP

SEPTEMBER 17, 2020

Regarding the news that have been published in the digital edition of the newspaper La Nation www.lanacion.com.co and also in Radio Nacional de Colombia www.radinacional.co, both entitled "Emgesa must restore 11,079 hectares in the area of El Quimbo (Huila)" Emgesa S.A. ESP (the "Company") reports that this is a judgment issued by the Court Administrative of Huila, within a popular action whose purpose is to protect the rights groups as in this case the environment and ecological balance and that seeks the suspension of the environmental license for the El Quimbo Hydroelectric Project (the "Project") and in which only the Company was sued, but also the Corporación Autónoma Regional del Alto Magdalena -CAM-, the Ministry of Mines and Energy, the Ministry of Environment, Housing and Territorial Development and the National Planning Department.

As for the claim about the suspension of the environmental license, it was denied by the Court as this is a fact that has been overcome since the Project is operating in the news. The sentence in its resolute part seeks the fulfillment of the obligations contemplated already from the environmental license, such as the restitution of 11,079 hectares, the perimeter road and fish restocking, obligations that are in execution.

The news mentioned above refers to the creation of a verification committee of the compliance of the ruling, as well as the people who compose it, a fact that is true.

It should also be noted that since this is a first instance ruling, it is not final and will be subject to appeal to the Council of State. The Company will also exercise all actions and relevant procedural acts to protect your rights.
